entered into, then we will give notice to you of that fact and will, at your request, provide you with reasonable evidence of such circumstances, although our determination will be conclusive.

- (d) If our computer records are different to your own records or recollection of your trading, the version of events recorded contemporaneously by our computer will prevail and our obligations to each other (including the obligation to pay any money) will be assessed and calculated on the basis that our contemporaneous computer records are correct and are conclusive evidence of the matters they record.

8.3 Nature of quote

A quote given to you by us is not an offer to contract. If you indicate that you wish to trade at the price quoted, you will be deemed to be making an offer to trade at the quoted price and we will be entitled to accept or reject that offer. No trade will be effective unless and until a Confirmation is given via the Trading Platform.

8.4 Formation of Contract

Your clicking 'buy' or 'sell' on the Trading Platform will send a message to us indicating that you wish to trade on the Product indicated. This message will constitute an offer by you to buy or sell at the price and trade size chosen. If we accept the trade, we will send you a Confirmation on the Trading Platform to this effect. Your trade will not have been placed and no Contract will come into existence until a Confirmation is generated on the Trading Platform. You must wait for the Confirmation to appear after clicking 'buy' or 'sell' and should you not receive the Confirmation within two (2) minutes you must notify us immediately.

8.6 US dollars

All payments made by you to us and by us to you will be in US dollars unless otherwise agreed.

8.7 Position duration

8.8 Opposing Positions

You may run opposing Positions in a Product. Both long and short Positions will appear in your Account and they will be treated as two open Contracts. However, we reserve the right to net the value of the opposing Positions.

8.9 Difference in buy and sell prices

You understand there may be a wider difference between 'buy' and 'sell' prices you are quoted on closing a Position than when it was opened.

8.10 Profit and losses

You further understand that a payment will pass between us equal to the difference in value expressed in the Base Currency between the opening price of all Positions and their closing prices. 12.7 Timing of payments

Any payment due by either us or you under this clause 12 will be made by us adjusting the Account immediately.

13. CLOSE OF BUSINESS ACCOUNTING**13.1 Daily Swaps of Contracts (other than Futures CFDs)**

When you hold a Position or Positions overnight (other than an Futures CFDs) they will be rolled to the next Business Day which will result in you paying a Swap Charge or receiving a Swap Benefit. The amount is determined by us and depends on our Swap Rate, being the rates at which you receive or pay interest on Positions that remain open overnight. This is a varying rate dependent upon the applicable rate in the Interbank Rates for the currencies or Bullion, the duration of the rollover period and the size of the Position.

No Swap Charge is paid or Swap Benefit is received in the case of Futures CFDs. Whether you receive a Swap Benefit will depend on prevailing interest rates in the Interbank Market as adjusted for our margin requirement with and the interest rate charged by our hedging counterparty.

Swap Charges and Swap Benefits will be accrued in the swap value field of your open Contracts. In the event there are insufficient funds in your Account, any amount due to us because of the Swap Charges becomes a debt due and owing by you to us.

(a) Entitlement

If you are long on a Margin FX Contract you may either receive a Swap Benefit or pay a Swap Charge, depending on the currency you are long, subject to paragraph 13.1(b).

If you are short on a Margin FX Contract you may either pay a Swap Charge or receive a Swap Benefit, depending on the currency you are short on, subject to paragraph 13.1(d).

(b) Long Margin FX Contracts

If you are long on a Margin FX Contract where the bought currency interest rates are higher than the sold currency interest rates you will receive interest at the Swap Rate if you hold the Position overnight and do not close it before the settlement time. This is because you are holding the higher yielding currency.

On the other hand, if you are long on a Margin FX Contract where the bought currency interest rates are lower than the sold currency interest rates then you will pay interest at the Swap Rate if you hold the Position overnight and do not close it before the settlement time. This is because you are holding the lower yielding currency.

(c) Long Bullion CFDs

If you have a long USD/short Bullion Position and interest rates in the United States of America are higher than the Bullion Swap Rate you would typically receive a Swap Benefit at the Bullion Swap Rate if you hold the Position overnight and do not close it before settlement time. This is because you are holding the higher yielding asset.

(d) Short Margin FX Contracts

If you are short on a Margin FX Contract where the sold currency interest rates are higher than the bought currency interest rates you will pay interest at the Swap Rate if you hold the Position overnight and do not close it before the settlement time. This is because you are holding the lower yielding currency.

On the other hand, if you are short on a Margin FX Contract where the sold currency interest rates are lower than the bought currency interest rates then you will receive interest at the Swap Rate if you hold the Position overnight and do not close it before the settlement time. This is because you are holding the higher yielding currency.

(e) Short Bullion CFDs

If you have a short USD/long Bullion Position and interest rates in the United States of America are higher than the Bullion Swap Rate you will pay a Swap Charge at the relevant Swap Rate if you hold the Position overnight and do not close it before settlement time. This is because you are holding the lower yielding asset.

(f) Index CFDs

If you hold Index CFDs overnight, you may either receive a Swap Benefit or pay a Swap Charge, depending on the Product you hold. The Swap Rate for Index CFDs are set out on our Trading Platform. Please ensure that you read and understand the Swap Charge/Benefits applicable for a certain Index CFD before entering into any Contracts with us.

13.2 Expiry of Futures CFDs Contacts and Close Out

Since all Futures CFDs are only cash settled and non-rollable, all open positions need to be closed. You should be aware of the expiry date and ensure that you close your Futures CFD positions when approaching the Expiry Date. If you do not close a Futures CFD position within 3 trading days of the expiry date of the Underlying Futures Contract, Midas Markets Co Pty Ltd may close your Futures CFD position for you at the first opportunity available to Midas Markets Co Pty Ltd at the prevailing market price. Any resulting costs, gains or losses will be passed on to you.

14.2 Margin Requirements to fill Orders

An Order which involves an instruction to us to open a Contract above a certain price will not ordinarily be filled unless at the time when the price reaches the relevant limit and your Account contains sufficient trading resources to cover the Initial Margin for the trade which is to be opened.

We may, at our discretion, proceed to fill such an order notwithstanding that your Account has insufficient trading resources to cover the Initial Margin for the Contract to be opened. In these circumstances we reserve the right at any time after the opening of the Contract to require you to deposit cash in the amount of the Initial Margin for that Contract. Any such deposits will be payable as Margin in accordance with clause 10 of this Client Agreement. A failure to make payment in the time and manner required constitutes an Event of Default.

We reserve the right to refuse to open a Contract in accordance with a Limit Order if:

- (a) there has been an Event of Default; or
- (b) in any other circumstances where we would be entitled to close the Contract had it already been opened.

You will remain liable for any losses in your Account which may be realised as the result of the filling of an Order, regardless of the trading resources available on your Account at the time the Order was filled.

We may impose a Stop Loss Order on any of your open Positions where we believe such action is necessary or desirable to limit the losses on any of your Positions including, but without limitation where:

- (a) we have any reason whatsoever to think that you will not pay us money that is or may become due to us; or
- (b) you make any statement to us which we have reason to believe may not be true; or
- (c) you fail to do anything that you have undertaken to us that you will do; or
- (d) we are having difficulty in communicating with you and there are grounds for believing that this is because you have failed to take reasonable care to ensure that you are contactable by us at all times. Such grounds will arise if (whether or not in order to make a Margin Call) we dial all the telephone numbers given by you to us but are unable to speak to you personally and:
 - (i) we leave a message on any message-taking facilities offered but we do not hear from you within thirty (30) minutes of leaving the message (or, if we leave more than one, the first message we leave, although if we leave or attempt to leave a message, either with a person who offers to take a message or on an automated message-taking service but for any reason it does not reach you we will nonetheless be deemed to have left a message for you); or
 - (ii) no message-taking services are offered and we dial all the numbers given by you again after a period of not less than thirty (30) minutes and are still unable to speak with you at once.

14.5 Informing you of Orders we impose

As soon as reasonably practicable after imposing a Stop Loss Order we will attempt to inform you that this has occurred via the Trading Platform. We are under no obligation to take any other steps to inform you of the Stop Loss Order and a failure for any reason to inform you of the imposition of a Stop Loss order will not affect the validity or enforceability of that Stop Loss Order.

14.6 ALLOCATION POLICY

We will deal fairly and in due sequence with all Orders having regard to Vanuatu legislative and regulatory requirements, market practices and our compliance policies and procedures.

To the extent that it is reasonably practicable to do so, we will allocate all Contracts (including Contracts effected pursuant to Orders placed on our own account) in the sequence in which we receive those Orders, subject to filters and compliance review and to any delay or technical faults connected with or arising through the use of the Trading Platform or any other delay that is outside the control of Midas Markets Co Pty Ltd.
